

# Kanine Korner

By Francis X. Lohmann

Ever hear of the Tibetan Mastiff? There are just three of the breed in the USA. These dogs are large, powerful and a bit on the fierce side. In their native Tibet they are used as outside guard dogs. . . . Keep this in mind during the upcoming hot summer months. The bleaching action of the sun can cause your dog's hair to fade. Another summertime health care hint: minimize exercising your dog on hot days. Walks should be short and not too brisk. Discourage romping or other strenuous exercise except during the early cool hours of the morning.

Sir Walter Scott, one of history's staunchest dog lovers, once said: "The Almighty, who gave us the dog to be the companion of our pleasures and trials, has invested him with a nature noble and incapable of deceit. The dog forgets neither friend nor foe, the dog remembers with accuracy both benefit and injury. The dog has a share of man's intelligence but no share of man's falsehood . . . ."

A MOST revolutionary dog waterer and food server has just hit the pet market. . . . Dr. Keene's K-9 Food and Water Server and it's scientifically designed and approved by veterinarians nationwide. A recent story in Veterinary Economics entitled "Maybe My Dish Is Big Business" caught this reporter's eye. I tried one out on my Lady Heather and she flipped; a recommendation enough for any canine product, that's for dog-gone sure! Dr. Keene's dish allows the dog to drink and eat as nature intended plus many additional unique features. Ask your local pet shop about this 20th century contribution to the welfare of man's best friend or write directly to Paul M. Keene, 419 Coaster St., Hincley, Ill. 60520.

There is definitely no truth to the old belief, that as long as a dog has a cool, wet nose he is in good health. Many times this is the case but don't depend on

this theory. A mighty sick little dog can have a cold nose.

TO MAKE imported dogs

feel at home during the required six months quarantine in England, a kennel at Midgham plays tape recordings of family life sounds. How about that?

Avid dog lover Charles C. Munea is one of the reasons banking is so popular at the Hollywood National Bank on Hollywood Boulevard. A happy, frisky, cute-as-a-button mixed breed pup makes the Munea household

even a cozier abode. . . . Sept. 22 through 28 is National Dog Week.

**BREED OF THE WEEK—** Labrador Retriever . . . Although he is considered a native of North America and is, at present, the most popular retrieving breed in the United States, the Labrador reached this position in a round-about manner. A little more than a 100 years ago considerable numbers of

medium-large black dogs were brought to Great Britain by traders and fishermen plying between Poole Harbor, England and the Eastern Coast of Canada.

These dogs proved powerful swimmers and the ability to retrieve seemed born in them. They came to be known as St. John's Dogs, in order to distinguish them from the larger, heavier-coated still known as Newfoundland.

British sportsmen, fast to recognize the merits of the St. John's Dogs as an aid to the gunner of waterfowl and game, created a brisk demand for good specimens of the breed.

IN 1903, the English Kennel Club, the counterpart of our AKC, recognized the Lab as a separate breed. During the late 1920s and early 1930s American Sportsmen became interested in

the breed and imported the best obtainable English stock. As matters stand at present, about 4000 Labs are registered annually with the AKC and another 1,000 are entered in the Stud Book of the American Field.

The sweet disposition, intelligence and hardness of the Labrador have made him a favorite among thousands of dog lovers, who find him to be a grand house dog and loyal and loving companion.

The Labrador Retriever is classified in the Sporting Group and tips the scales at about 70 pounds and in height 23 inches. E. L. Brooks, program director at KTYM, is an avid Labrador Retriever owner and fancier.

Listen to Francis X. Lohmann's radio version of Kanine Korner, Monday through Friday at 4:30 p.m. over Station KTYM, 1460 Kcs.

## Southland College Opens Here

Opening of the Southland College of Medical and Dental Assistants in Torrance has been announced here. The college is located at 15711 Crenshaw Blvd., across the street from El Camino College.

Short-term, intensified courses are offered at the college to enable students to learn a career in a few short months. Classes meet for only three hours each day.

The college also is approved for federal student loans. Additional information and tours of the college may be arranged by calling the college.

Southland College of Medical and Dental Assistants was first opened in Montebello and is one of the oldest schools of its kind in the area.

## Patrolmen Confiscate Arsenal

A small arsenal of weapons and ammunition was confiscated from two Torrance youths early Sunday morning after police spotted them driving from the Sears parking lot at a high rate of speed.

Stashed in various places inside the car were a Derlinger with a white handle, an Ithica M-66 sawed-off shotgun, a Winchester rifle, a Browning 22 rifle, and a switchblade knife.

Police also uncovered a cache of firecrackers and ammunition.

The youths were arrested at 1:30 a.m. on suspicion of armed robbery and possession of concealable weapons.
